Historic Stevens Mansion To Be Army Hospital

Where Revolutionary soldiers stood looking across the Hudson and watched the British evacuating New York in 1783; where Col. John Stevens and Robert Fulton worked together on a screw propeller for steam vessels in 1807; where leading Royalists and their ladies, and later the forefathers of the Nation gathered in many a brilliant social event—there, in the historic mansion at Castle Point, Hoboken—American soldiers wounded in the Great War will be nursed back to health.

The beautiful old home was offered to the Government several months ago by Richard Stevens, and military authorities have just taken it over formally. Army medical officers are now in charge and the grounds and buildings have been fitted for the use of the patients.

Back in 1706 Hoboken, described then as an island, was deeded to the Bayard family. This was during the reign of Queen Anne. The highland of the present city was set off from Bergen Heights by a waterway known as Mills Creek. One could

circumnavigate the island in a sloop. William Bayard, familiarly known as "Weeping Willy," a Royalist, owned the land and Castle Point when the Revolutionary War started. He retired from the country and the property was confiscated. In 1783 John Stevens, who had served as a Colonel in Washington's army, bought it for \$90,000. He used the famous mansion as his home and sold much of the other property. Since that time Castle Point and the mansion have been in the hands of the Stevens family. The mansion itself, which will be used by the soldiers, has sixty-four rooms, most of them overlooking the Hudson. It stands on a high cliff, rising out of a grove of trees, and is a familiar landmark.

TAXI AND BUS MEN SEEK A RULING ON SUNDAY AUTO BAN

Sightseeing Car Owners Also Want to Know How Their Business Is Affected.

Although the Fuel Administration has reiterated that taxicabs are included in the "request" that all pleasure machines cease operation on Sundays for the conservation of gasoline, there are several companies in the city that wish a more explicit interpretation. In no instance is there a passenger-carrying company that wishes to act contrary to any patriotic movement, but apparently several are not quite clear as to what action they must take.

John A. Ritchie, President of the Fifth Avenue Coach Company, believes his bus lines will be permitted to operate.

"My interpretation of the law is that it does not apply to public utility," said Mr. Ritchie. "However, I have wired to Washington to-day to get a strict interpretation. If I fail to get a reply we will operate. A reply from Washington telling us we come under the ban will be strictly obeyed."

Among the companies that run sightseeing machines around the city and to Coney Island there is much speculation. S. B. Fuchs, general manager of the Empire State Sightseeing Company at No. 140 West 40th Street, said he will call a meeting of the Sightseeing Federation of New York between now and Sunday to determine what action to take.

W. E. Baker, general manager of the Bronx Taxicab Company, said to-day that he is not quite sure of his standing. He has called a meeting of the Bronx Taxicab and Renting Associations for to-morrow when the matter will be taken up. A. B. Lato, head of the Twentieth Century Taxicab Company, said to-day that he had heard that some of the taxicab companies intended to cut out their flat rate and use their machines to carry persons to railroad terminals and similar places. He declared that in his opinion this was camouflage and poor patriotism and that his concern, which is 100 per cent American, would shut down tight on Sunday.

The automobile trade is reported solidly behind the movement for gasoline conservation. This fact is reported by the National Automobile Chamber of Commerce at No. 7 East 42d Street.

A. C. Bedford, President of the Standard Oil Company of New Jersey and head of the Petroleum Committee of the Fuel Administration locally, was expected to return from Washington to-day with information that will give an exact interpretation of the Sunday auto ban and clear up all misunderstandings.

Want Ban on German Language. LONDON, Aug. 28.—(Reuter.)—German is being drafted by the South African Government to prevent the use of the German language in public places. At a mass meeting at Pietermaritzburg a protest was made against the increased cost of living and the appointment of a food controller was demanded.

AGRICULTURAL PURSUIT.

(From the Tenthredinist.)
Flatbush—Is your wife interested in any agricultural pursuit?
Benjamin—Well, she chases chickens out of our garden, if that's what you mean.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

HOW TO ACQUIRE HAIR BEAUTY

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist's a package of Canthox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing the hair dries quickly with a softness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—Adv.

FREE YOURSELF

From Pimples, Sallow Skin, Circles Under the Eyes, Bad Breath, Headaches, Constipation.

You need R. & G. Pills; they contain podophyllum—the best known vegetable liver stimulant and substitute for calomel. R. & G. Pills stimulate the liver to secrete bile, to carry on the work Nature intended it to do. 10c, 25c.

"My hands stay pretty, now"

No need to have rough, red hands if you wash them the right way

"My hands used to get so red and cracked from housework. Sometimes they would actually smart with pain."

"Now they stay smooth and lovely all the time."

Every woman has trouble keeping her hands in good condition. Housework, especially, is so hard on them. Fine particles of dirt and dust get ground into the pores and tiny furrows of the skin. Unless properly cleansed, these impurities irritate the skin—coarsen its delicate texture—redden the hands.

When you wash them with Lifebuoy, its rich, creamy lather not only cleanses thoroughly, but it carries into the pores a most healthful antiseptic.

Protects your skin—keeps it healthy

Modern health authorities are teaching the value of prevention. Keep your health, they say—take care of yourself while you are well—prevent sickness.

The skin, especially, needs daily protection. Through its millions of pores it is constantly throwing off perspiration acids—picking up dust and dirt from the air. For this reason alone the hands should

be washed often, and always before meals.

The antiseptic in Lifebuoy affords just the protection your skin needs. This antiseptic, carried into the pores, soothes and softens the skin—helps to restore its smooth, delicate appearance—keeps the hands lovely!

Use Lifebuoy every day—see how its big, cleansing lather keeps your hands smooth and lovely—how it makes your face glow with health! Bathe with Lifebuoy, too—see how it stimulates and refreshes the skin! Nothing like it!

The odor tells you why

The "health" odor in Lifebuoy is found in no other soap. It is not a perfume—not the odor of a medicine—but a pure, hygienic odor that tells you why the soap benefits the skin. One whiff of Lifebuoy and you realize why it cleanses so thoroughly—why it purifies and protects—why it improves your skin.

Get a cake of Lifebuoy at any grocery or drug store. Just try it—and watch your skin improve.

Lever Bros. Co., Cambridge, Mass.
